

Chameleon[®] QUALIS

with **QUANTUM[®] X LED** technology

The revolutionary UV LED fly control unit the market has been waiting for!

Lowest power consumption, consistent with superior flying insect attraction

A bliss to service - LED tubes require replacement only once every 3 years

PestWest[®] LED sticky board with specially formulated adhesive

Full metal construction

3-year guarantee^(*) and certified to the latest international legislation

QUANTUM[®]
LED

- No mercury
- Environmentally sustainable
- FEP shatterproof coated
- Future-proof

Why is the Quantum[®] X different?

- Unrivalled distribution of UVA LED light significantly improving flying insect control.
- Minimal energy consumption without any dimming – typically over 35% less than other LED technologies.
- Lower environmental impact: zero mercury content & 3-year tube lifespan.

A unique design, lightyears ahead of the rest

- No dazzling UV spots as with traditional LED chip technology used by other manufacturers. These can be uncomfortable for people and too intense for attracting flies.
- Unique Helium LED cooling gas for maximum reliability and longer lasting performance.
- Shatterproof coating containing all elements in the event of a breakage.

ENERGY SAVINGS

Comparison of power consumption in Watts

* Calculated with an average cost of electricity of 28p per kWh and 10 units per site.

Chameleon[®] QUALIS

DIMENSIONS:
H:30cm W:57.5cm D:4cm

WEIGHT: 3.6kg

COVERAGE: 90-120m²

FINISH:

- White Coated Zintec Steel
- Stainless Steel

TUBE DATA:

- 2 x Quantum X LED tubes
- Shatterproof coating with industry compliant FEP
- Powered by a state of the art LED driver

*excluding consumables
